

ECO SENSORS STATE OF THE ART OZONE INSTRUMENTS USING THE LATEST DIGITAL TECHNOLOGY

NEW MICROPROCESSOR BASED INSTRUMENTS FROM ECO SENSORS, INC.

Plug-in precalibrated sensors. No need to return instruments

A-22
Battery operated hand-held.
Readout of high, low, average.
USB and other data outputs.
Autoranges 0-2 and 0-20 ppm.

OS-4
Fixed monitor/controller.
Remote sensor module.
Can link to wireless nets.
Relay, digital, etc. outputs.

UV-100
0-900 ppm UV analyzer.
Relay, digital, etc outputs.
Data logging. Autoranging.
Can be battery operated.

Applications

- Indoor air quality (IAQ)
- Small water systems
- Water remediation projects
- Health care sterilization
- Field Engineering
- Systems components
- Ozone laundries
- Food preparation and storage
