

SAT-1

Signal Alarm Tower

The SAT-1 is a tower light stack with an audible alarm that may be used to indicate various states of operation when connected to Eco Sensors instruments including the OS-4, OS-6, C-30ZX, EE-2, OEM-1, OEM-2, UV-100, and C-21. The indicator lights and audible alarm are controlled by relay contact closure.

The SAT-1 can be mounted on new OS-6 orders at the Eco Sensors factory or ordered separately and installed by the user. Hardware is included for direct mount only.

Specifications

Indicator Lights:	Green, Amber, Red; High 360° visibility
Audible Alarm:	None, Slow Pulse, Fast Pulse; 85 dB at 1 m
Voltage:	24 VDC
Current Consumption	
Lights:	Green: 22 mA, Amber: 28 mA, Red: 28 mA
Buzzer:	40 mA
Power Supply:	350 mA
Mounting Location:	Indoor use only
Size:	40 mm X 228 mm (1.57" X 8.97")
